Artificial intelligence has close connections with philosophy because both share several concepts and these include intelligence, action, consciousness, epistemology, and even free will. Furthermore, the technology is concerned with the creation of artificial animals or artificial people (or, at least, artificial creatures) so the discipline is ...Philosophy of religion is "the philosophical examination of the central themes and concepts involved in religious traditions." These sorts of philosophical discussion are ancient, and can be found in the earliest known manuscripts concerning philosophy. Known for its lightness, the fluttering of its wings, and especially its metamorphosis from a caterpillar into something more beautiful and powerful, the butterfly symbolizes the soul, reincarnation, resurrection, and femininity.
