

# Download Business Policy : A Framework For Analysis

74 Srivastava, A. & Thomson, S. B. (2009). Framework Analysis: A Qualitative Methodology for Applied Research Note Policy Research. Business analysis is a research discipline of identifying business needs and determining solutions to business problems. Solutions often include a software-systems development component, but may also consist of process improvement, organizational change or strategic planning and policy development. The Business Process Framework (eTOM) is a critical component of Framework, the TM Forum's blueprint for enabling successful business transformation. It is a comprehensive, industry-agreed, multi-layered view of the key business processes required to run an efficient, effective and agile digital. We did a ton of brainstorming for the new business and eventually we had enough ideas to create our proposal which would serve as the framework for the new company.
