

Download Clean Planet: Stopping Litter And Pollution (you Can Save The Planet)

How to Help Stop Pollution. Stopping pollution is important for the survival of our planet, and even more importantly, the health and well-being of the people who depend on it. The air we breathe is laden with hazardous contaminants, and...The Earth can't digest plastic. Plastic things are bought and used and that's it – the Earth is burdened further. This issue has reached critical point. And we have to act. All of us. Because we are the issue. I know some of us get flummoxed by the data. Which is why I thought I'd share thisA proposed energy-from-waste plant which could divert 650,000 tonnes of rubbish from landfill each year appears set to go ahead. Theresa May will commit the UK to eliminating all avoidable plastic waste by 2042 as she launches the Government's environmental plan for the next 25-years.
