

Download Florida Butterflies.

Guide to Butterflies Found in Florida. Florida is home seasonably or year-round to almost 200 species of butterflies and is one of the premier destinations for naturalists in search of photography opportunities throughout most of the year. The Non Profit Organization dedicated to protecting, preserving and populating Florida's native butterflies! Downtown Fort Myers, Southwest Florida Fill the sky with a butterfly release of beautiful Monarch butterflies, Painted Lady butterflies, or, in Florida, our Florida native mixture of butterflies, and make your wedding or other special occasion truly a memorable event. When you think of butterflies, the first to come to mind is probably the Monarch, but there's a lot that researchers are still learning about these butterflies. In this week's What's Growing On, TV20's Alex Calamia speaks with a biologist at UF who realized south Florida's year-round Monarch Butterfly population is actually coming from ...
