[Laurel Jizba; Association for Library Collections & Technical Services. Interactive Multimedia Guidelines Review Task Force.] [Laurel Jizba; Association for Library Collections & Technical Services. This is a very useful compilation of guidelines for cataloging interactive multimedia. According to the glossary of this book, interactive multimedia is "Media residing in one or more physical carriers (videodiscs, computer discs, computer optical disks, compact discs, etc.) or on computer networks. Interactive multimedia must exhibit both of these characteristics: (1) user controlled, nonlinear navigation using computer technology; and (2) the combination of two or more media (audio, text ...
