

Download How Do We Tell The Children

This data shows the problem is increasing, but it does not tell how many children are carrying knives in total. Last year, 0.6% of 10 to 15-year-olds said they had personally carried a knife and ...Have we gone trophy-crazy as a society, bestowing trophies on children for almost anything, even just showing up? Are we afraid children will be hurt by losing, so we make everyone a winner? One in every 5 young people between the ages of 13 and 18 live with a mental-health condition — yet the average delay between the onset of symptoms and intervention is between eight and 10 years. Children's Hospice South West provides hospice care for life-limited children and their families from across the South West of England. This website offers families and professionals information on the care provided and making referrals.
