

Download How Glass Is Made How It Is Made

At Taylor Made Glass Systems, we provide complete glazing solutions for mass transit vehicles, agricultural, construction and mining equipment, emergency vehicles and class 8 trucks. Now you see it, now you don't. Glass is a bit of a riddle. It's hard enough to protect us, but it shatters with incredible ease. It's made from opaque sand, yet it's completely transparent. Taylor Made Glass & Systems has long possessed unmatched expertise and unparalleled processes for the precision bending and tempering of glass. View full site map » ...
