

# Download In Patagonia (penguin Classics)

In Patagonia is Bruce Chatwin's exquisite account of his journey through "the uttermost part of the earth," that stretch of land at the southern tip of South America, where bandits were once made welcome and Charles Darwin formed part of his "survival of the fittest" theory. An instant classic upon publication in 1977, In Patagonia is a masterpiece that has cast a long shadow upon the literary world. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world.
