Yes, I'd like to receive Word of the Day emails from YourDictionary.com By continuing, you agree to our Terms of Use and Privacy Policy. In seventh and eighth grade, English is a correlated study of language, literature, vocabulary, and composition. In seventh grade, teachers emphasize the study of basic grammatical usage and application of concepts in writing assignments. There are activities that are common to all middle schools, such as yearbook, band, chorus, orchestra, drama, and student publications. Each school also develops programs that meet the needs and interests of that specific student population.
