

# Download On Law And Reason 2nd Edition

Crime, Reason and History critically analyses the general principles of criminal law and offers a different viewpoint: that the law is systematically structured around conflicting elements. Updated to include two new chapters with an extended treatment of offence and defence, this new edition combines challenging and sophisticated analysis with accessibility. Crime, Reason and History provides an alternative approach to the study of the general principles of criminal law. It emphasises, in contrast to orthodox texts, the tensions and contradictions at the law's heart. Crime, Reason and History provides an alternative approach to the study of the general principles of criminal law. It emphasises, in contrast to orthodox texts, the tensions and contradictions at the law's heart.
