

Download Recent Advances In Plant Biotechnology

Biotechnology Advances is a review journal which considers all aspects of the multidisciplinary field. The scope includes biotechnology principles...1. Introduction. For millennia, medicinal plants have been a valuable source of therapeutic agents, and still many of today's drugs are plant-derived natural products or their derivatives (Kinghorn et al., 2011, Newman and Cragg, 2012). Plant Science & Physiology 2019 will provide a dedicated platform to peer researchers, scientists, academicians, and industrialists to meet, discuss and share the knowledge on various fields of botany and their research work and many more at Sydney, Australia. Current Opinion in Chemical Engineering is devoted to bringing forth short and focused review articles written by experts on current advances in different areas of chemical engineering .
