The "Typewriter Database" is the biggest source of typewriter serial numbers on the Internet today. As far as we know, it's even the most complete collection of serial numbers ever. But when you see the number of given brand names, it's still only a beginning. Look for a typewriter that has gold lettering on it, found on the Royal 1 model, or silver lettering found on the Royal 10 model. All of the lettering on the early Royal machines, including the patent information, is in either the gold or silver color. Royal Empress Serial # MCE 11-8109527 1965. It's bigger than an IBM Selectric, and weighs almost as much, but it's a manual! I like that it kind of looks like the Jetsons' car.
