I have browsed almost all the previous threads, but still cannot get this working. I am trying to add a new sheet to an existing workbook. My code works, but it keeps on adding a lot more (so many of them actually) sheets. The start of each day all my Excel files open very small. After I maximize them, they will open and close just fine for the rest of the day. But the next day they all open small again. Here are some fixes discussed earlier, programmatically resizing/repositioning the Active X Controls after click events, or modifying the registry (with the D word LegacyAnchorResize), didn't solve the issue for me with Excel 2010/ Windows 7 64 bit. Singapore Math is the curriculum that is or has been used in Singapore (English is the language of instruction in Singapore). It is a mastery-based curriculum that focuses on conceptual understanding, and is ahead of typical U.S. math books.
