

Download The Science Of Wine From Vine To Glass

Uncork the Unexpected. Vine Connections is a category leader that champions wine regions and sake brewers that deserve to be known, making them relevant to the U.S. fine wine and sake markets. About Us. The Urban Wine Company™ was born out of an idea a few years back. Neighbours Richard and Paul were relaxing underneath a vine enjoying a glass of wine that had been flown half-way across the world. Think of that rich, deep red: swirling in your glass, catching the light. Think of art, science and personality, think of patience. A grape is a fruit, botanically a berry, of the deciduous woody vines of the flowering plant genus *Vitis*. Grapes can be eaten fresh as table grapes or they can be used for making wine, jam, juice, jelly, grape seed extract, raisins, vinegar, and grape seed oil.
