The A-iPower SUA12000E generator delivers power when you need it. It is powered by A-iPower's 459cc tough and reliable engine. It provides 12,000 watts of starting power and 9,000 watts of running power. @VonC: I don't think this answer is correct. Using `core.autocrlf=true` on Windows works as expected. All files from the repo (which should have LF line endings in this scenario) are converted to CRLF line endings on checkout to a Windows PC. RANDOM.ORG offers true random numbers to anyone on the Internet. The randomness comes from atmospheric noise, which for many purposes is better than the pseudo-random number algorithms typically used in computer programs.
